Mirror Mirror is a story of sibling rivalry. This ninety-minutes plus solo traces the relationship between identical twins Minal and Maanya. Minal leads a happy childhood till her sister Maanya, who was living with her uncle, is brought back home. This shakes up Minal's childhood and sows within her seeds of hate.

As she grows up, Maanya's shadow keeps looming on her. She blames everyone from her parents to her teachers and her friends for preferring Maanya over her. And one day, a teenage Minal falls in love with a distant uncle who seduces her. After copulation, she discovers something horrific that forever changes her destiny - the destiny that she tried designing.
